

## **HSIM Computer Requirements**

On-campus students are required to purchase a laptop computer and software that meets the department's computing requirements.

Distance education students must have access to computer and software that meets the department's computing requirements.

The department use PCs (not Apple computers) and Microsoft Office products operating in a Windows environment. Students are responsible for resolving compatibility issues if using other products. Students must also maintain access to high-speed Internet.

Note – Refer to ECU Academic Computing Environment (ACE) (<http://www.ecu.edu/cs-itcs/ace/>). The programs in HSIM are listed as requiring Basic PC or Multimedia PC on page 6 of student computer requirements and recommendations.
